Note. The red dotted lines in the above diagram, represent the river as meandered in the original survey made by B. Bentley D.S. in the Year 1820. The red figures show the contents of several tracts that have been sold by the United States according to that survey. The black lines and figures show the meanders and contents of Islands No 1 & 2 according to the survey now made by A.E. Van Ness. Island No 1 contains now 92.10 acres. By comparing these surveys, one with the other, it appears that, in consequence of changes in the river, there has been a gain to this Island, since the original survey was made of 51.70 acres, 10.50 of which is from a fraction of Sec 31 T 14 N. R. 3 E. which has been sold by the U.S. as containing 36.67 acres. And 41.20 is from a fraction of Sec. 6 T 13 N R 3 E, which has been sold in like manner as containing 11.29, leaving for the content of the Island at the time when the original survey was made, 40.40 acres.

The above diagram of Islands, in the White River in Sections 6, 7, 8 and 31, in Townships 13 & 14 N. W. 2nd. Mer. <sup>Indiana</sup> is strictly conformable to the field notes of their survey on file in this office, which have been examined and approved.

## Islands in White River

Surveyed by A. E. Van Ness. D.S. 1848

Note. The red dotted lines in the above diagram, represent the river as reconstructed in the original survey made by B. Bontley D.S. in the year 1820. The red figures show the contents of several tracts that have been sold by the United States according to that survey. The black figures and lines show the meanders and contents of Islands N°1 & 2 according to the survey now made by A. E. Van Ness. Island N°1 contains now 92 acres. By comparing these surveys one with the other, it appears, that in consequence of changes in the river, there has been a gain to this Island since the original survey was made of 5170 acres. 1050 of which is from a fraction of section 31. T 14 N. R. 3 E. which has been sold by the United States as containing 36.67 acres. and 41.20 acres. is from a fraction of section 6. T. 13 N. R. 3 E. which has been sold by the same in like manner as containing 111.89 acres. leaving for the content of the Island at the time when the original survey was made 40.40 acres.

I certify <sup>the</sup> the above is a true copy of the approved original plat in this office.

Surveyor General's Office  
 Detroit July 20<sup>th</sup> 1849

Lucius Lyon,  
 Sur. Genl
